AYUSHMAN KAUSHAL

Ludhiana, Punjab | +91 9915942962 | ayushmannkaushal@gmail.com
linkedin.com/in/ayushmankaushal | github.com/ayushman031

PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate with hands-on experience developing Python backend services, Dockerized workflows, asynchronous processing and network debugging tools. Built an AI-assisted payment recovery system with idempotent webhooks, automated tests and synthetic performance evaluation. Strong foundation in DSA, OOP, TCP/IP, Linux and AWS fundamentals.

TECHNICAL SKILLS

Programming: Python, C++, JavaScript, SQL; Java (fundamentals)

Cloud & Developer Tools: AWS (EC2), Linux, Docker, Docker Compose, Git, GitHub, CI/CD fundamentals

Backend, Data & Testing: FastAPI, REST APIs, PostgreSQL, SQLAlchemy, Redis, Celery, pytest, Node.js, Express.js, MongoDB

Core CS & AI: Data Structures & Algorithms, OOP, Operating Systems, TCP/IP, DNS, HTTP, multithreading, scikit-learn

PROJECTS

REVIVE - AI Revenue Recovery Agent | github.com/ayushman031/revive-ai | 2026

- Built a Docker Compose-based payment-recovery application using FastAPI, PostgreSQL, Celery and Redis, with REST APIs and asynchronous background processing.
- Implemented idempotent webhook ingestion, ML-based failure diagnosis, deterministic policy checks, recovery execution and measurement; added backend tests using pytest.
- Evaluated 10,000 synthetic transactions against a baseline: recovery rate rose from 21.80% to 22.49% (+0.69 percentage points), with approximately INR 5.56 lakh higher net simulated recovery.

Network Packet Analyzer | Python, Scapy, TCP/IP, raw sockets, multithreading, AWS | Feb-Mar 2026

- Developed a Python packet-capture and filtering tool to inspect TCP/IP traffic, detect suspicious patterns and support protocol-level network troubleshooting.
- Applied multithreading for concurrent analysis, reporting approximately 40% greater packet-processing efficiency and testing against 500+ packets.

FREELANCE ENGAGEMENT & ACHIEVEMENTS

AI Engineer - Indic (Freelance Contract), Vraify AI Private Limited | Sep 2026

- Contracted for AI benchmark quality assurance: review science-question translations and AI-proposed corrections for semantic fidelity, answer-choice consistency and protected technical notation.
- Additional contractual scope covers algorithmic solution validation, automated test-suite creation, Docker-based testing and time/space complexity metadata.
- Solved 200+ DSA problems across LeetCode, GeeksforGeeks and HackerRank; participated in IIT Ropar Gen AI and other hackathons.

EDUCATION

Lovely Professional University, Phagwara | B.Tech, Computer Science and Engineering
Aug 2023-Present | CGPA: 7.41

CERTIFICATIONS & TRAINING

Oracle Certified Generative AI Professional (Jul 2025) | Computer Communication, Coursera (Nov 2025) | C++ OOP & DSA Summer Training, LPU (Jun-Jul 2025)
